

A Complete System of High Quality Compounds and Glazes Specially Matched With Color Keyed Application Pads That Quickly Correct Damage or Defects to Base Coat/Clear Coat Finishes.

High Quality Compounds/Glazes
Formulated specifically for use on today's base coat/clear coat finishes. All compounds are a finely balanced blend of high quality abrasives and wetting agents to speed finishing. All Kent Complete Compounds and Glazes contain no wax or silicone.

Color Keyed
Eliminates guesswork, the correct compound and glaze is color matched to the specially designed applicator pad.

Staged System
Just follow the numbered products in sequence to quickly remove drips, runs, sags, wheel marks, oxidation, scratches and orange peel.

Quick-Lock™ Pad System
Hook and Loop backing pad and color keyed polishing pads ensure the right pad is used with each compound or glaze. Quick-Lock System allows fast change of pads.

Complete System

A Complete System of High Quality Compounds and Glazes Specially Matched With Color Keyed Application Pads That Quickly Correct Damage or Defects to Base Coat/Clear Coat Finishes.

HEAVY
Orange peel, Dust nibs, Runs, Drips, Sags, 800-1500 grit scratches

MEDIUM
Overspray, Heavy oxidation, 1500-2000 grit scratches

LIGHT
Wheel marks, Low gloss, Light oxidation, 2000 grit scratches

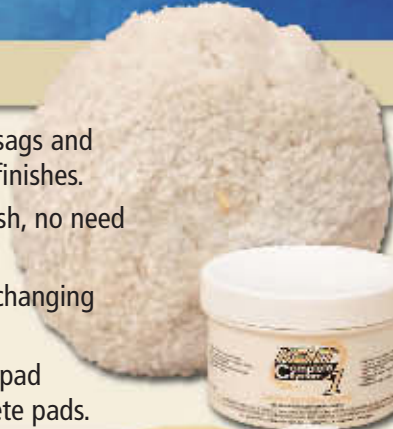

FINISH
Final finishing, Detailing

Complete Compounding Paste & Wool Pad

STEP

1

- Removes dust nibs, 1,200 to 1,500 grit scratches, drips, runs, sags and orange peel, without damaging modern base coat/clear coat finishes.
- Versatile, easy-to-use on any fresh (air dried for 24 hours) finish, no need to stock different products for different finishes.
- Buffs easily with no throw-off or load-up on pad, saves time changing and cleaning pads, leaves no residue.
- Color coded off-white paste (Part #P80502), matching wool pad (Part #P30112), back-up pad (Part #P30118) fits all Complete pads.

Wet sand with 800-1500 paper—cross sand with 2000 paper. Spot polish with Kent Complete Wool Compounding Pad #1 and Kent Complete Compounding Paste #1 at 1500-2400 RPM.

1

Complete Compounding Liquid/Yellow Pad

STEP

2

- Removes heavy oxidation, minor 1,500 to 2,000 grit scratches, light orange peel, light dust nibs and overspray from modern base coat/clear coat finishes.
- Easy-to-use liquid reduces labor time in finishing or removing paint imperfections.
- Buffs without loading the pad and leaves no residue.
- Excellent polishing characteristics return clear coat finishes to like new conditions.
- Color coded yellow liquid (Part #P80503), matching pad (Part #P30116).

Spot polish with Kent Complete Yellow Compounding Pad #2 and Kent Complete Compounding Liquid #2 (yellow) at 1500-2400 RPM.

2

Complete Machine Glaze/Blue Pad

STEP

3

- Formulated for use on all new car finishes removing light 2,000 grit surface scratches, wheel marks and light oxidation.
- Designed for use on today's easily damaged base coat/clear coat finishes.
- Quickly dries to a high luster.
- Color coded blue glaze (Part #P80504), matching pad (Part #P30114).

Spot polish with Kent Complete Blue Buffing Pad #3 and Kent Complete Machine Glaze #3 (blue) at 1500-2400 RPM.

3

3

3

Complete Hand Glaze or Non-Silicone Carnauba Glaze

STEP

4

- Works exceptionally well on all factory base coat/clear coat finishes.
- Leaves a high gloss final paint finish that is dry and free of wheel marks and hairline scratches.
- Easily applied by hand for final procedure on new paint jobs.
- The final step in the Kent Complete System of paint finishing.
- (Part #P80505 or #P33520)

Apply Kent Complete Hand Glaze or Non-Silicone Carnauba Glaze with damp clean cloth, use medium pressure until finish starts to dry. Wipe off with a soft, lint-free cloth.
