corrosion protection

Bring it back to original condition

with Kent Guard, the new ultimate corrosion protection restoration system from Kent. Kent Guard meets the most demanding, high-performance needs of quality minded body shops. Kent provides easy-to-use corrosion protection products that assist you in meeting industry standards and insurance specifications. With Kent Guard you really can bring it back to original condition.

**KENT GUARD CORROSION PROTECTION** products offer a complete line to restore factory protective coatings while improving your productivity. Kent Guard includes simple-to-use products that will help you easily and quickly restore damaged vehicles back to their original condition.

By offering vast improvements over existing technology, Kent products have been a preferred choice of autobody craftsmen.

## SELF-ETCHING PRIMER

For complete refinishing or spot repairs, this primer adheres to steel, aluminum and stainless steel. Can be utilized with most paint systems. For use on all exterior body panels.

## RUST CONVERTER

A special metal treatment that permanently transforms rust into a protective coating that resists further rusting. For use in areas where rust removal is difficult.

## WELDABLE ZINC PRIMER

A one part, zinc-rich primer used to restore the protection of OEM zinc coatings on inner, outer and structural steel body panels.

## FLOOR SOUND DEADENER PADS

These self-adhering pads reduce road noise and alleviate "tinny" sounding vibrations from panels. Conforms to irregular surfaces. For use on floor pans and trunks.

## OUTER PANEL RUSTPROOFER

A heavy-bodied rustproofers for exposed metal surfaces. Provides superior rust/corrosion protection. For use on exterior underbody panels.

## INNER PANEL RUSTPROOFER

A superior penetrating rust and corrosion preventative for all metal surfaces. For boxed sections, frame rails, inside quarter panels and doors.

## CLEAR FLEX GUARD

Flexible, anti-chip coating used on painted surfaces to protect from stone chips and similar damage caused from road debris. For use on lower body panels of vehicles and fascia parts.

## STONEY GREY

Easy-to-apply, under-paint coating. Cushions paint to protect lower body panels from stone chips. Matches factory finishes. For use on rocker panels and lower body panels.

## RUBBER GUARD

A synthetic rubber-based coating formulated to withstand abrasion, crucial temperature extremes, and exposure to sun, water, ice and snow. For use in wheel openings, trunks and underbody areas.
