

PROBLEM SOLVER

PROBLEM:

DRUMMOND[®]
A LAWSON PRODUCTS BRAND

Workplaces can become greasy and potentially dangerous.

This Causes:

- Grease to travel from the floor to the drain and causes clogs.
- Soiled floors that create a slippery, hazardous work environment.
- Lingering odors.
- The use of harsh chemicals to get rid of the grease buildup.

SOLUTION:

Bio Mighty Bioenzymatic Cleaner/Degreaser

- Natural d-limonene and beneficial bacteria attack and break down tough grease and organic matter.
- Continues to break down grease after initial use.
- Continued use improves slip index for safer work conditions.
- Reduces accumulation of grease and grime to maintain free-flowing drains.
- Provides a deep down clean to prevent bad odors

APPLICATIONS:

- Greasy, dirty films on hard surfaces
- Machinery and equipment
- Soiled concrete or quarry floors
- Parts washing
- Bathrooms

INDUSTRIES:

- Agriculture
- Arenas
- Food Processing
- Government
- Hotels
- Manufacturing
- Property Management
- Restaurants
- Warehousing
