

PROBLEM SOLVER

PROBLEM:

Standard electrical connectors and wiring:

- Has trouble insulating electrical connections in hard-to-reach areas.
- Corrodes due to weather exposure.
- Is constantly subjected to road grime.
- Is difficult to fix in tight spot.

SOLUTION:

Kent Automotive® Posi-Seal Plus™

- Seals electrical connections without the need for heat tools.
- Easy to handle in difficult-to-reach areas.
- Seals out moisture, alkalis, acids, steam, oils, chemicals, and solvents.
- Protects against corrosion and abrasion.
- Self-fusing insulation compound sticks to itself, so it's easy to apply in tight spots.
- Can be applied at temperatures from 32°F to 100°F (0°C to 38°C).
- Rated to 600V

APPLICATIONS:

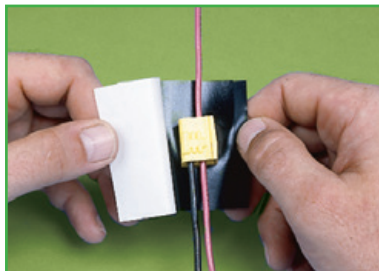

- Trucks
- Trailers
- Buses
- Amusement parks
- Grain elevators
- Snowmobiles
- Motorcycles
- RVs and marine

INDUSTRIES:

- Automotive
- Construction
- Equipment rental
- Marine
- Mining
- Transportation

Peel off backing

Place on terminal

Wrap and seal
