Ceramic Single Step Polish

A revolutionary polish containing ceramic surface material for added vehicle protection. This polish can be used as a standalone product or as an excellent choice for preparing any vehicle's surface for a Ceramic Detail Spray application. Contains fine milled polishing agents to give a consistent cut throughout the buffing cycle, while ceramic material is deposited into the pores of the clear coat. Perfect for light cutting of new and used vehicles. The ceramic material deposited acts as a base layer for additional ceramic application, either liquid or spray. The base layer works synergistically with either the liquid or spray, so there is no need to have an additional prep step prior to additional ceramic application.

- Cleans, shines, and adds base ceramic to finishes
- Fine milled polishing agents
- Prepares the surface for ceramic application
- Easy wipe off and no dusting
- Tight water beading

DETAIL COMPOUNDS PADS and ACCESSORIES

Euro Foam Pads

The Euro Foam Pad line is a four-pad system that is designed to be simplistic and easy to understand. These foams are denser than traditional foams, so the pad does not wear down as quickly and you get more consistency and a better final finish. Utilizing open cell foam also allows the pad to remain cooler when working. The coned shape of the pad allows for more balance and surface area coverage than comparable 6" pads on the market. The hole in the center of the pads also assist with pad heat by providing a path for heat to escape while work is performed on the surface. Additionally, the center hole helps with visually aligning the pad onto backing plates that have a similar center hole.

Description	Color	Item No.	Pkg. Qty.
6" Foam Blue Pad	Blue	1636436	1
6" Foam Maroon Pad	Maroon	1636437	1
6" Foam Yellow Pad	Yellow	1636438	1
6" Foam White Pad	White	1636439	1

- Blue Foam – Use for heavy compounding, pairs great with Kent's Heavy Leveling Compound (1636314)
- Maroon Foam – Use for medium compounding, pairs great with Kent's Medium Leveling Compound (1636317)
- Yellow Foam - Use for medium or light polishing, pairs great with Kent's Ceramic Single Step Polish and Body Shop Safe Polish (1636323) and Swirl Remover (1636326)
- White Foam – Use for your final finishing product or wax, pairs great with Kent's Gold Wax (1636329), Ceramic Detail Spray (1633821), and Detail Spray (1636173)

Euro Fiber Pads

- White and Black – Uses 2 different fibers which allow for the ability to do light cutting and polishing with a single pad. This pad utilizes shorter fibers than other comparable products on the market. This unique combination allows for greater defect removal and superior finishing. Pairs great with Kent's Ceramic Single Step Polish and Body Shop Safe Polish and Swirl Remover.

6" Euro Microfiber Pad	Black and White	1636440	1
6" Euro Microfiber Finishing Pad	Black	1636441	1

- Black – Utilizes a standard fiber length to provide a more refined final finish. An excellent follow up after using white and black pad for polishing. Pairs great with Kent Gold Wax, Ceramic Detail Spray, and Detail Spray.

Wool Cutting Pad

A 100% knit wool pad designed with the professional in mind. Use to help remove scratches from automotive finishes. The hole in the center of the pads also assist with pad heat by providing a path for heat to escape while work is performed on the surface. Additionally, the center hole helps with visually aligning the pad onto backing plates that have a similar center hole. Pairs great with Kent's Heavy Leveling Compound or Medium Leveling Compound.
