## Fleet and Equipment Winter Maintenance

### Spray Zinc Cold Galvanizing Zinc System

Bonds to metal surfaces and forms a hard, protective zinc coating that is extremely effective at preventing corrosion

- Zinc coating withstands over 3,000 hours in salt-spray test
- Composition of 93% pure zinc and 7% resin bonder

Item# 1509231

### Lubri-Temp Anti-Seize Compound

Multipurpose, High-Temperature, and Copper-Free Aluminum-Complex Lubricant, Anti-Seize and Protective Coating

- Prevents metal-to-metal seizing, galling and sticking in stainless steel and petrochemical applications
- Excellent water washout resistance
- Minimizes variabilities during fastener installation, resulting in consistent clamp loads

Item# 19920 – Aerosol  
 19921 – 1-Lb. Brush Top Can  
 19923 – 5-Lb. Plastic Can

### Core Penetrating Chain & Cable Lubricant

Penetrating action goes to the core of steel cables, displaces water, and leaves a lubricating film which prevents rust and corrosion

- Special moly additive reduces friction and resists high-temperature breakdown
- Stays where applied – resists water washout and slinging

Item# DA6631

## Fleet, Equipment, and Facility Repair

### Patch 'N Bond™ Repair Epoxy

SteelStik Two-Part, Single Stick Repair Epoxy is ideal for repairs to iron pipes, tools, equipment and more. AquaStik is utilized in applications including water tanks, plumbing fixtures, and more.

- Single sticks ensure a correct component mix every time.
- Can be drilled, sawed, carved, sanded, stained, painted or filed within an hour

Item# 55374 – SteelStik  
P45335 – AquaStik

### Clean Lube™ II Dry Lubricant

Colorless, solid film, lubricant provides clean, silicone free lubrication without staining.

- Ideal for reciprocating or oscillating motion systems
- Resistant to chemicals such as solvents, acids, alkalis and more

Item# P90385

### Uni-Solv Paint Preparation Solvent

Prepares surfaces for painting by removing grease, oil, paint overspray, silicone grease and most waxes.

- Safe for most plastics and can be used on aluminum, enamel, baked-on paints, vinyl, fabric, glass, metal and wood
- Dries residue free

Item# 56160
