

Overview

d-Limonene is the major component of the oil extracted from citrus peels. It can be used as a straight solvent or a water-dilutable product.

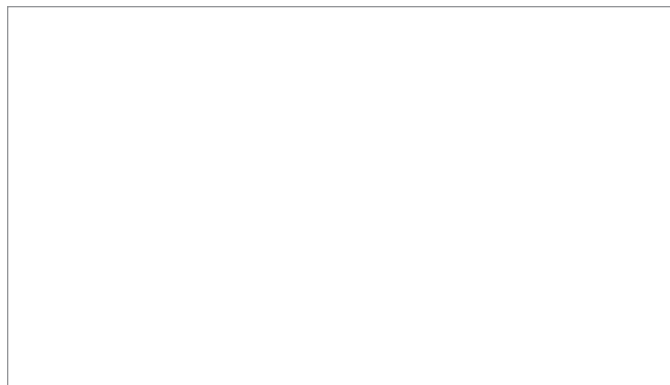

Applications

(1 of 2)

d-Limonene cleaners can be used when cleaning up grease, dirt, adhesives, paint, grime and inks. They leave behind a pleasant citrus fragrance. As a straight solvent, d-Limonene can replace a wide variety of products, including mineral spirits, methyl ethyl ketone, acetone, toluene, glycol ethers, fluorinated and chlorinated organic solvents.

- Deodorizer
- Parts washer cleaner
- Coil cleaner
- Degreaser
- Concrete cleaner
- Kitchen floors
