## WypAll® Cloth Towels

### Overview

What makes WypAll® X better than standard shop rags and towels? Patented HydroKnit Technology combines two layers of absorbent material with a center reinforcement layer. This allows the towel to be strong and super-absorbent, even when wet.

### Features/Benefits

#### WypAll® X80 Cloth Towels

- More consistent wiping surface than rags
- More absorbent than scrap rags and rental shop towels
- No holes, strings, metal chips or residue (unlike laundered shop towels)
- Maintains strength in solvents
- Thick, strong towel for tough applications
- One box equivalent to 25 lbs. of rags
- One jumbo roll equivalent to 75 lbs. of rags

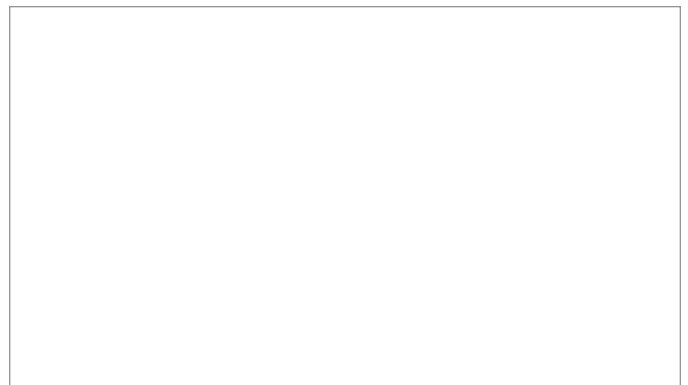

#### WypAll® X60 Cloth Towels

- No holes, strings, metal chips or residue (unlike laundered shop towels)
- More absorbent than scrap rags and rental shop towels
- Reinforced for extra scrubbing and cleaning power
- Thick and strong towel for tough applications
- Excellent replacement for standard disposable towels
- One box equivalent to 25 lbs. of rags
- One jumbo roll equivalent to 150 lbs. of rags

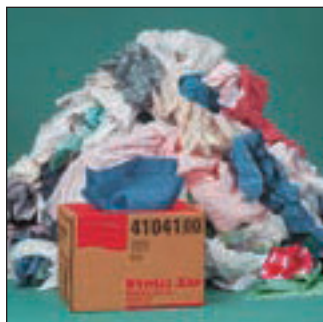

### Typical Applications

- Production facilities
- Machining facilities
- Maintenance facilities
- Laboratories
- Food services
- Health services
- Employee areas
- Personal wiping
- Parts and component cleaning
- Surface preparation
- Tool and equipment cleaning
- Small spill cleanup

**WypAll® X Wipers vs Rags and Shop Towels**

**Standard Shop Rag Disadvantages**

- Many different grades and qualities
- Bulky packaging
- Inconsistent performance
- Significant waste
- Same rags can be rented up to 15 times
- Delivered “new” – often with holes, strings, residues or metal chips
- Several hidden costs including replacement costs, environmental costs, delivery costs, cost of short deliveries

	 <b>WYPALL X</b>	 <b>Rags</b>	 <b>Rental Shop Towels</b>
<b>Performance</b>	Exceptional absorbency of oil, grease, solvents and water; reusable and durable	Materials may not be absorbent; some rags are unusable	May smear liquids, grease and oil instead of absorbing them
<b>Consistency</b>	Clean, fresh, consistent size and shape every time	Often random shapes and sizes, various materials	May have holes, strings, metal chips or residue
<b>Convenience</b>	Available in a variety of dispensing options	Bulky cases take up space and can be hard to move	Frequently dropped off without verification of quantity
<b>Value</b>	Clearly marked packaging shows exactly what you're getting	Cases may indicate weight but not number of rags	Invoice may include added charges and fees

**WYPALL® X80 absorbs water and oil faster than laundered shop towels**

Product	Oil Capacity (gram per gram)
Rental Shop Towels	~2.0
WypAll X80 Towels	~3.0

Product	Water Capacity (gram per gram)
Rental Shop Towels	~2.5
WypAll X80 Towels	~4.0
