Subject: Letter of Certification – **Bulldog Multipurpose Adhesive** (DB1041)

To Whom It May Concern:

Bulldog Multipurpose Adhesive is suitable for use as an adhesive sealant in federally inspected USDA establishments. It is prepared from substances authorized as safe adhesive components by 21 CFR Part 175.105. The liquid adhesive hardens by solvent evaporation and becomes an inert material upon curing. **Bulldog Multipurpose Adhesive** must be used and applied as indicated on the label directions to prevent adulteration of food products. The FSIS inspector in charge must be notified prior to use of this product.

Bulldog Multipurpose Adhesive is formulated to meet high-performance industrial requirements. It is abrasion resistant, maintains a flexible bond in cold temperatures, and provides a waterproof seal. When cured, **Bulldog Multipurpose Adhesive** gives a clear bond that will not obscure detection of debris or unsanitary conditions.

Should you have any questions or need additional information, please contact the Regulatory Affairs Department at the number listed below or at the e-mail address regulatoryaffairs@lawsonproducts.com.
