A LAWSON BRAND

## Who We Are

Since 1952, Lawson Products has been serving industry and U.S. government customers with personalized service and quality products for facility and vehicle maintenance needs.

Our approach to providing maintenance solutions reduces downtime and lowers maintenance costs to save you time and money.

Our sales force is comprised of specially-trained, local agents who provide customized storage, dispensing and inventory systems specific to your needs, and our in-house technical department is available for all of your engineering inquiries. We provide on-site surveys, review inventory requirements, and ensure dependable, scheduled service to achieve downtime goals.

### Hardware Solutions

Extending the life of your vehicles and equipment is easily achieved when using Lawson's high-quality maintenance engineered components and tools.

### Welding and Metal Repair Solutions

Repair costly equipment with our Cronatron brand of specialized welding and metal products. Uniquely developed for in-the-field maintenance, our welding products provide strong, long-lasting fixes and improve your welding repairs.

### Specialty Chemical Solutions

Whether it's everyday maintenance or on-the-spot emergencies, our Drummond brand of specially-formulated, industrial strength solutions solve the most difficult maintenance problems.
