

## Low Noise Straight Die Grinder

- Soft cushion Ergonomic grip promotes operator comfort, reduces hand fatigue and helps insulate the tool in hot and cold climates
- Twin bearing design provides ultra-low vibration and extended tool life
- Patented low-noise technology allows tool to operate at only 80dBA
- Great for cutting, deburring and blending with power and precision

Free Speed (RPM)	Air Inlet (Inches)	Hose Size (Inches)	Air Consumption at 90 PSIG (CFM)	Collet Size (Inches)	Working Pressure (PSI)	Length (Inches)	Noise Level (Decibel)	Motor (HP)	Item No.	Pkg. Qty.
5,000 – 22,000	1/4	3/8	3.5	1/4	70 – 100	7	80	1/2	DY80000140	1

## Low Noise Angle Die Grinder

- Soft cushion Ergonomic grip promotes operator comfort, reduces hand fatigue and helps insulate the tool in hot and cold climates
- Right angle head permits easy access to tight areas
- Power / Speed regulator allows for easy RPM adjustment
- Patented low-noise technology allows tool to operate at only 80dBA
- Excellent for deburring, blending and buffing

Free Speed (RPM)	Air Inlet (Inches)	Hose Size (Inches)	Air Consumption at 90 PSIG (CFM)	Collet Size (Inches)	Working Pressure (PSI)	Length (Inches)	Noise Level (Decibel)	Motor (HP)	Item No.	Pkg. Qty.
18,000	1/4	3/8	3.5	1/4	70 – 100	7	80	1/2	DY80000142	1
