

Blue Grease™

High-performance, calcium-based grease for general industrial maintenance applications. Extremely resistant to water washout, will not break down under heavy load applications.

- Wide temperature range:
-25°F to +250°F (-32°C to +121°C)
- Applications include mechanical hoists, conveyor systems, anti-friction bearings, exposed gears and drives
- 20 oz. can size; 11.5 oz. net wt.
