## The Autowriter™ Wet Erase Marker NEW

The Autowriter is a marker developed for the automotive dealership and auto body repair industries. The paint from the marker wipes away clean and doesn't leave any permanent marking or damage. Autowriter's unique water-soluble formula is tough enough to write on a surface, but gentle enough to be removed with water and a cloth.

Dries quickly and is resistant to smudging. The pens form a rain-resistant barrier about one-half hour after application.

- Writes on steel, glass, aluminum, plastic, wood and rubber
- Fast-drying ink
- Forms a durable, weather resistant marking that is easily removed with a cloth and glass cleaner or mild detergent
- Non-roll gripping cap

Color	Item No.	Pkg. Qty.
