

PROBLEM SOLVER

Many Customers Have Experienced The Following:

PROBLEM:

With ordinary reciprocating saw blades

- Teeth strip when cutting through nail-embedded wood
- Blade breaks when out of position
- Short blade life under maintenance conditions

SOLUTION:

Lawson Hardflex® Reciprocating Saw Blades

- Will cut through metal, masonry and nail-embedded wood
- Bi-metal construction allows blade to cut when out of position
- High-speed steel teeth outlast ordinary blades

“Let me show you how it works”

Cuts through nail-embedded wood

Performs out of position
