Stud Stretcher Equipment Repair Kit

One low-cost kit provides the right tool for any stud extraction job!

CW3030 comes in the handy AC1 Welding Rod Drawer and contains:
- 333 – 1/16", for 1/4" and smaller studs in any position (.5 lbs.)
- 333 – 3/32", for 1/4" to 3/8" studs in flat or horizontal positions (1.5 lbs.)
- 3330 – 3/32", for overhead removal of any size bolt or stud (1 lb.)
- 333 – 1/8", for 3/8" to 5/8" bolts in flat or horizontal positions (2 lbs.)
- 333 – 5/32", for 5/8" and larger studs in any position (1 lb.)
- Enough material supplied to extract over 150 studs

Easily removes broken studs, wheel bolts, rusted and frozen screws, broken drills, easy-outs and taps.
