Effective as a Solvent Yet Water-Based

Water-Based Parts Washer Concentrate

This blend of grease- and ink-cutting, water-based ingredients is designed specifically for water-based parts washing systems. Reduces the concerns regarding combustibility, noxious odors, worker safety, atmospheric environmental pollution and disposal.

Benefits:

- Formulated for use in water-based parts washer systems
- Industrial grade with a pleasant citrus fragrance
- Reduces environmental concerns

Applications:

- Apartment building maintenance
- Automotive repair shops
- Car & truck rental & leasing
- Local transit authorities
- New & used car dealers
- Service stations
- Automotive parts stores
- Building maintenance services
- Industrial machinery manufactures
- Motorcycle dealers
- Print shops & newspapers
- Sign companies

Directions for Use:

Prepare the working solution by diluting 1 part product with 2 parts water (a 33% solution). Fill the cleaning unit to be used to the necessary level with the working solution. This product will slowly release the oil and grease that have accumulated in the solution. See label for more specific directions.

NOTE: The degreasing ability of this product is enhanced by heating the working solution to 100 - 110°F (38-44°C).

Base Code: R204

Companion Products:

Base Code

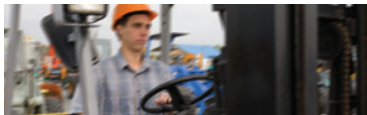

- VOC Compliant Brake & Parts Degreaser.....R256
- VOC Compliant Aerosol Solvent DegreaserR202
- Recirculating Spray Wash Detergent.....R200
